DUAL CASH BOX NOTE AND TICKET VALIDATOR

ABSTRACT OF THE DISCLOSURE

A bill acceptor system for accepting bills, vouchers, scrip, tickets and/or currency into an electronic gaming machine or alternative type of customer service device. The system includes a validator assembly capable of identifying acceptable notes and discriminating between currency and non-currency notes. The system also includes a transport assembly for transporting notes from the validator to a dual section cash box. The dual section cash box is configured to receive and hold notes received from the bill acceptor in different compartments.
